A few days before that date he granted another reprieve. Recently the case was carried to the supreme court of the United States, and both will have another lease of life for at least two or three months while that august body is examining the voluminous records of the trial.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

A German firm is achieving success in the sale of wrought iron wardrobes. They are supplied in four different sizes. A Good Record.
Out of all the external remedies on the market we doubt if there is one that has the record of that world-renowned porous plaster—Allcock's. It has now been in use for sixty years, and still continues to be as popular as ever in doing its great work of relieving our pains and aches. It is the remedy we all need when suffering from any ache or pain resulting from taking cold or overstrain. Allcock's Plasters are sold by Drug-gists all over the world.

It is easier to look over another's faults than it is to overlook them.

A Laxative in Chicago writes:
"I have had very severe attacks of Rheumatism, and Tartarlithine is the only remedy that does not seriously interfere with my digestion."

Success in the Gulf Coast Country

Here is an example of what YOU could do.

150 Bushels of Corn from One Acre in 15 Months

Mr. John Closner has a farm near Hidalgo, Texas. He has raised three crops of corn on one piece of land in the last fifteen months. Each crop yielded not less than fifty bushels to the acre.

He does not have to wait for the ground to thaw in the Spring. Almost as soon as he harvests one crop he can plant for the next. He is not afraid that the weather will be too wet or too dry or too cold. He waters his land by irrigation and has an inexhaustible supply of water.

If you will write Mr. Closner at Hidalgo, Texas, he will tell you more about this country. There have been many other instances of remarkable success in the Gulf Coast Country, of which I will be glad to tell you upon request.

Wouldn't you like to have a small farm there where success does not depend on uncertain weather with irregular rainfall?

Now the land is cheap and you can get it on easy terms. Twenty acres will cost you about \$500. The cost of clearing it is about \$5 an acre. The cost of water for irrigation varies. You may want an artesian well of your own; you may get water from some river; or you may get it from your neighbor. But the cost is not great, and those who have tried it have netted from the first crop a sum which has paid all expenses and left a good surplus.
